

What Sprout Social Cannot See

BUYER DEMAND INTELLIGENCE VS SOCIAL MONITORING

THE CORE DIFFERENCE

	SPROUT SOCIAL	DEMAND PULSE
Answers	Who mentioned you on social?	What do buyers want to buy next?
Signals	Mentions, sentiment, share of voice	Search queries, save velocity, aesthetic clusters, transactions
Sources	8 social platforms	Search, Pinterest, luxury forums, auctions, editorial, Xiaohongshu
Horizon	Past 30 days	2–6 months ahead
Output	Dashboards requiring interpretation	Design briefs + sales triggers — ready to act
Built for	30 000 brands, any industry	Faberge — your categories, your peer houses

EIGHT SIGNAL LAYERS — SIX INVISIBLE TO SPROUT

Search intent What buyers query, by geography (UK, US, GCC, Asia)	Community discourse x Pre-purchase conversations in luxury forums
Peer-house reactions Response to Cartier, Van Cleef, Tiffany, Buccellati	Aesthetic search x Imagery saved as desire reference, 3–9 months pre-purchase
Aesthetic velocity x Gen Z taste shifts on short-form video	Asia early warning x Chinese platforms, 6–12 months ahead of Western press
Realised sales x Auction and resale data — what transacts, at what price	Editorial signal x Specialist luxury journalism for boardroom framing
